

connex Chain

"8sE", self-service package, stainless steel inner links, nickel plated outer links, 124 links, extra long and reinforced E-bike-chain

RRP: 59,25 €

8-, 7- and 6-speed chains from WIPPERMANN Due to high speeds, powerful drives and higher bike weight, e-bike chains are exposed to far greater loads than conventional chains. This is why the 8sE from WIPPERMANN is specially designed for use on motorized bikes. If you ride a bike with an 8-speed, 7-speed or 6-speed drive, the 8sE chain is just right for you. As the 124-link chain is made of steel, it is particularly durable. In order to be able to close the chain properly, a Connecting Link is included in the scope of delivery, which connects the two loose ends.
