

CONTEC Hub Dynamo "Powerhouse Hub 1"

32 hole, silver

RRP 129,95 €

The dynamo hub "Powerhouse Hub 1" by CONTEC supplies your bike safely, maintenance-free and reliably with power in any weather. This small power plant has NdFeB magnets, which are characterised by high efficiency and at the same time very low resistance. This provides enough power even at low speeds to power lighting without flickering. With its aluminium housing, which is available in matte black as well as in silver, the "Powerhouse Hub 1" is suitable for wheel sizes 26" to 29". A wide range of spoke holes is also covered. Both colour variants are available in 28, 32 and 36 hole versions. The "Powerhouse Hub 1" is equipped with a hollow axle for quick release and Center Lock mounts for disc brakes. The plug for connecting the dynamo hub to the lighting is included in the scope of supply. Although it is extremely robust and maintenance-free, the "Powerhouse Hub 1" weighs just 405 g.
