

CONTEC Battery-LED-Rear Light "TL-130"

carrier attachment 80mm

Price: 5,50 €

More safety in the urban jungle! If you are a cyclist in the congested traffic of a big city, it is often hard enough not to be overlooked. Good bicycle lighting prevents accidents and makes you feel safe. The CONTEC battery LED rear light "TL-130" combines the advantages of a battery rear light, namely when stopped and the uncomplicated, trouble-free use without cables, with those of a permanently installed light. It is protected from theft and ready for use at any time. The "TL-130" is StVZO-compliant (German Road Licensing Regulation) and is designed for installing on the 80 mm mount of a rack. The 3 bright high-quality LEDs and transparent plastic housing together with the integrated reflector ensure the best visibility and improved safety in the dark. Batteries are included. The CONTEC battery LED rear light "TL-130" is suitable as a daily companion on a city or touring bike in the jungle of the city due to its high-quality finish, its good lighting properties and its numerous other advantages.
