

CONTEC Children Brake Lever "BL-K10"

right

RRP: 12,95 €

Ergonomics and best brake control for small hands Children love cycling. Therefore, no compromises should be made in the choice of safety-relevant parts, in particular the brake.The CONTEC "BL-K10" child brake lever for right-hand mounting made of durable, lightweight aluminium is suitable for all bikes with a wheel size from 16" to 20" and is ready for all the fun. The design is suitable for common handlebar diameters of 22.2 mm and for use with V-brakes, as well as for twist shifters for derailleur and internally geared hub drivetrains. Due to the solid design made of high-quality aluminium, the robust brake lever is particularly rigid and thus allows a good modulation of the brake intensity.The aluminium lever in black and silver is DIN-compliant and ideally suited for small hands: Thanks to the wide grip area, the lever can be operated with 4 fingers.The "BL-K10" impresses with its high-quality materials and good ergonomics and is therefore the optimum brake lever for all children's bikes with V-brakes.
