

CONTEC Brake Lever "BL-MT20 TWIST"

right

RRP: 12,95 €

Optimal performance & dosability in a sporty designDue to their ease of maintenance, modulation and good braking performance, V-brakes are very popular and are used on many bike types. Good braking performance depends not least on the quality of the brake lever.The CONTEC brake lever "BL-MT20" is specially designed for use with V-brake systems. The robust aluminium brake lever in black and silver is suitable for all bikes with V-brakes due to its 3-finger design and the low weight of only 98 g. The design of the "BL-MT20" also enables the assembly of twist shifters. Thanks to its high-quality and robust aluminium finish, the "BL-MT20" can withstand even high loads.With the practical barrel adjuster, the brake cable tension can be corrected quickly and easily. In addition, the distance between the brake lever and the handlebar can be adapted to individual requirements.The CONTEC brake lever "BL-MT20" is perfect for all bikes with V-brakes. It is available for right-hand or left-hand mounting. High-quality workmanship and individual adjustment options are particularly convincing here.
