

CONTEC Brake Inner Cable "Stop++"

self-service package, universal, incl. 1 end sleeve

RRP: 6,95 €

Robust and safeCyclists do not compromise on braking. Braking has to be reliable with every pull. The CONTEC "Stop++" brake cable already shows off its excellent braking quality with its name.In the event of sudden braking, for example in response to an unforeseen incident, this, 2000 mm long, 1.5 mm diameter brake cable is the perfect partner. Made of durable steel, it withstands both permanent stress and spontaneous braking manoeuvres.The highlight of this high-quality brake cable for bicycles is the well thought out PTFE coating. It is resistant to the cold, heat and various chemicals. Simply put: This brake cable can withstand corrosive influences or roads strewn with salt in winter."Stop++" by CONTEC is a universal brake cable for bicycles, which can be used on an MTB just as well as on a touring bike. The selected material and the elaborate workmanship right up to the supplied end caps ensure convincing braking performance.
