

CONTEC Saddle "Volare City XXL"

dimensions (LxW) 260 x 220mm

Price: 17,99 €

Extra wide & triple comfortThe "Volare City XXL" by CONTEC is a comfortable and particularly back-friendly bicycle saddle with an extra wide width. It offers a high level of comfort when riding out in the city or cycling in the countryside. This city and touring saddle has 3 different padded zones, thanks to which you can sit comfortably in any posture. In addition, known problems with blood vessels, nerves and seat bones are avoided. On the one hand, a dense padding in the rear of the saddle supports an upright seating position. On the other hand, there is a soft comfort zone in front of it, thanks to which the buttocks find welcome relief. At the very front, there is a flat padding zone. It supports a sporty, dynamic riding style. All in all, it is therefore always possible to find a comfortable sitting position even during long rides. In addition, the elastomer suspension provides relief for the seat bones, spinal discs and the facet joints. This prevents discomfort in the lower part of the lumbar spine. Thanks to its lightweight cold foam padding, this unisex saddle with a firm and break-resistant CrMo frame weighs just 520 g. Another advantage of cold foam is that this material does not store heat well. As a result, this city and touring saddle cools down quickly even after direct sunlight. All in all, cyclists will find that CONTEC's "Volare City XXL" saddle meets high standards of comfort. If you want a particularly wide saddle, this is a great choice.

Datos maestros

Número de artículo del proveedor:	5A309 00001M
EAN	4251507919470
UVP	39,95 €
