

CONTEC Saddle "Volare GT"

gents, (LxW): 275 x 175mm, 408g

Price: 15,99 €

Comfort in 3 zones Enjoy relaxing hours on a trekking bike and decompress from everyday life: If you want to enjoy real riding pleasure, you need the right saddle. The "Volare GT" from CONTEC ensures optimum comfort in all seating positions. This trekking saddle offers 30% more padding in the back to ensure that it is very comfortable. This means that you will be able to ride comfortably, even if the route gets a bit rough and bumpy. Behind the arrangement of the padding is a system: The saddle is divided into 3 zones. For one thing, a dense padding zone ensures comfortable, upright rides. Especially for longer tours, the advantage is that you tire less quickly. In front of it there is a softer comfort zone, which relieves the buttocks if necessary. On top of that, there is a flat sport zone at the front for more forward-leaning riding. In addition, this saddle has elastomer damping that absorbs the pressure in the seating area and thus increases comfort. By the way, the padding of the trekking saddle is made of cold foam. This offers the advantages that it is permanently elastic and at the same time very light. Another advantage of cold foam padding is the thermal conductivity properties of this material: Although the saddle becomes warm in intense sunlight, it cools down very quickly. This means that there is nothing to stand in the way of trekking pleasure even on hot days. At 275 x 175 mm, the men's model is slightly longer and narrower than the 255 x 185 mm women's model. All in all, CONTEC has made the "Volare GT" trekking saddle to offer a lot of comfort for different types of riders and riding styles.

Datos maestros

Número de artículo del proveedor:	SBVICM 000003
EAN	4251507919432
UVP	34,95 €
SB-Artículo	Sí
Fedas-Code	160267
DST-Code	2C01
Bidex-Code	206010
Marca/Proveedor	CONTEC
Unidad de medida:	PIECE
Weight	0.425 kg

Datos técnicos

Alojamiento de tija de sillín	micro-adjust
Anchura	175.0 mm
