

CONTEC Pedal "CP-041"

black / silver

Price: 7,99 €

Ride a mountain bike through the forest or take a sporty ride on a bumpy track in the big city jungle to work? Here, reliable and stable pedals are important. The CONTEC MTB/ATB pedal "CP-041" is the ideal pedal for various situations. Ground ball bearings in a robust aluminium body and a profiled cage ensure particularly low-loss and efficient power transmission and secure grip to the "CP-041". The high-quality axle made of break-resistant CrMo steel contributes to the increased safety and durability of the pedal. "CP-041" is available self-service packed and has a 9/16" thread that fits all common cranks. For good visibility in low light conditions, two yellow reflectors are attached to each pedal - a safety benefit in traffic. The "CP-041" is the ideal all-round pedal for MTBs, cyclocross and touring bikes due to its smooth running, low weight of only 240 g, and its solid finish while also being equipped with StVZO-compliant (German Road Licensing Regulation) reflectors.

Datos maestros

Número de artículo del proveedor:	VP-199
EAN	4250311373874
UVP	16,95 €
Bidex-Code	202310
SB-Artículo	Sí
DST-Code	2N02
Fedas-Code	160374
Marca/Proveedor	CONTEC
Unidad de medida:	PAIR
Weight	0.25 kg
