

CONTEC QR Wrench Set "SQR Select + S"

rocket silver

RRP: 19,95 €

Effectively protected from theftSuper annoying: When you leave your bike locked, sometimes thieves come by and steel the seatpost or wheels. The "SQR Select +" quick release set reliably prevents this.The set consists of a locking spanner, a front wheel axle (M5 x 112 mm), a rear wheel axle (M5 x 145 mm) and a seatpost clamp (M6 x 45 mm).It provides excellent protection against theft: The quick releases can only be opened with the special security lever.The axles of this set are made of high-quality chrome-molybdenum steel. Here, you benefit from a high tensile strength as well as good anti-break properties.The aluminium 6061 of the axles also has a high tensile strength. It also is lightweight.With this quick release set, you can choose from many attractive colour designs in the "Select" family by CONTEC.
