

CONTEC Cable Cover "Shift"

black

RRP: 22,95 €

The Perfect Fit for Shift Cable HosesOnly properly adjusted shifting components make cycling truly enjoyable. Whether on an MTB, road bike, or touring bike—derailleur cables and outer casings should be replaced during every inspection if they are corroded. Moisture constantly penetrates the outer casings, leading to corrosion of the shifting cables. This causes them to expand, preventing smooth shifting.The CONTEC “Shift” Cable Cover, made of plastic with a diameter of 4 mm, fits snugly against the ends of the shift cable outer housing. It thus effectively prevents moisture from penetrating and leaves no scratch marks on the frame. The CONTEC “Shift” Cable Cover pairs perfectly with the “Shift” outer housing and can therefore be used with many common Hub and derailleur systems. The Cable Cover is supplied in a bottle containing 150 pieces—perfect as a stock pack for your home workshop.

Datos maestros

Número de artículo del proveedor:	CX20DP
EAN	4250311341101
UVP	22,95 €
