

CONTEC Combination Cabel Lock "EcoLoc"

Ø 15mm, 430g, security level: 5

RRP: 18,95 €

Uncomplicated & secureNo key and no need to search for it - the advantages of a bicycle lock with a combination of numbers are apparent. The CONTEC combination cable lock "EcoLoc" has a locking mechanism with 4 numbers. The user can choose the combination themselves by turning the inner adjusting ring. When the adjustment ring is returned to the starting position, the new combination with the desired digits can be used.Thanks to the 85 cm long, highly flexible steel cable, a place to lock up can be found everywhere. In addition, the durable vinyl coating protects the cable lock from rain and rust, as well as the paint from unsightly scratches. "EcoLoc" can be easily attached to the frame with the appropriate lock mount: The practical mount is screwed to the braze-ons for the bottle cage, where the lock can then be clicked in without rattling.The CONTEC combination lock "EcoLoc" is thus always at hand and perfect for everyday use on bicycles.
