

CONTEC Glasses "3DIM"

black / neogreen

Price: 14,99 €

Ultralight & individual fit Extremely flexible, the lightweight yet stable sports glasses "3DIM" by CONTEC have 3 easy and tool-free replaceable lenses. You can choose between a lens with a dark tint ("Smoke"), without a tint ("Clear") or with a light tint ("Amber"). The sunglasses protect 100% from UV radiation. Thanks to their great and comfortable fit, the "3DIM" feel great to wear. Not only are the glasses flexibly adjustable, but the nose pad can also be adjusted individually by the wearer. In addition, the ends of the temples and the nose bridge are rubberised and thus prevent the glasses from slipping, even in hilly terrain. The model has a wide field of vision, so that the frame does not create a narrow feel. In addition, the generous lenses offer optimum protection against sun, air winds and insects. The ventilation of the lenses also keeps them from fogging up, even when stationary. The CONTEC sports glasses "3DIM" are supplied with a case and 2 pairs of spare lenses. The perfect glasses for sports and outdoor adventures of all kinds.
