

CONTEC Cable pliers "TFM 110"

150mm grip length

RRP: 20,95 €

For bicycles, cables and housings should also have a straight cutting edge to facilitate further use. The CONTEC cable pliers are ideal for cutting spokes, thicker cables, cable linings or shifter cable housings. The crescent-shaped cutting surface applies even pressure and cuts without deforming or squeezing the cable. The use of ferrules and smooth cable guiding are thus made possible. The plastic-coated handle provides grip and prevents pressure points on the hand.An ideal tool for numerous cutting tasks on the bicycle.
