

CONTEC Grip "Tour Deluxe Pro Kork"

cork / black

Price: 14,99 €

Comfort, even on long distances Longer bike tours quickly become a strain on the hands, especially on the wrists. With the CONTEC grip "Tour Deluxe Pro Kork" not only athletes equip their bikes in a professional way. The secret of the grips is the D3 three-component system: In the back, the product is soft to optimally absorb all vibrations. The front, on the other hand, is medium-hard to give the fingers a secure grip. The hard inner section provides a secure connection between the handlebar and the grip. The wing-shaped design also reliably prevents the wrists from buckling. The grips thus effectively prevent hand fatigue. The biker feels it, especially during challenging rides. The ergonomically designed handlebar grip is particularly suitable for long rides. It offers maximum comfort for this purpose. A handlebar clamp is already included, as well as integrated bar ends. The grip by CONTEC is 140 mm long and is offered in the attractive colour combination black/cork. This way, it also visually upgrades every bicycle. With the "Tour Deluxe Pro Kork" grip, cyclists achieve a high level of riding comfort while at the same time significantly increasing safety on and off the road.

Datos maestros

Número de artículo del proveedor:	VLG1185AD3 CORK
EAN	4250311335964
