

## CONTEC Chain "eNHANCED Drive eD.11+"

workshop package with 30m (2364 links), incl. 25 connecting links

**RRP 810,95 €**

Low wear, robust & durableThe CONTEC chain "eNHANCED Drive eD.11+" is particularly suitable for e-bikes. Thanks to hardened pins and low wear, this Longlife e-bike chain can also be used on bikes with powerful mid-motors such as those from Bosch. Even with the very high drive forces of the electric motors, it shows no weaknesses and ensures a smooth running of the chainrings. The distance from one chain roller to the other is 1/2". The width of the inner plates of the bicycle chain, where the chainrings engage, is 11/128". Due to its narrow dimensions, the chain can be used for up to 11-speed drivetrains without any problems. The environmentally friendly anti-rust coating reliably prevents oxidation and at the same time protects the environment. Silent operation and good shifting characteristics characterise the bike chain with its 136 individual links. The "eNHANCED Drive eD.11+" CONTEC chain is supplied with a master link, with which it can be mounted quickly and properly.

### Datos maestros

Número de artículo del proveedor:	TA-E-ONE-111 30M BOX
EAN	4250311399034
UVP	810,95 €
Bidex-Code	202050
SB-Artículo	Sí
DST-Code	2R03
Fedas-Code	160364
Marca/Proveedor	CONTEC
Unidad de medida:	PIECE
Weight	5.9 kg

### Datos técnicos

Anchura	5.8 mm
Anchura pulgadas	11/128 "
