With a capacity of 25 liters, it offers enough storage space to carry notes and food for your lunch break. The elasticated outer pockets are suitable for water bottles, while the rubber mesh on the front makes it quick and easy to attach your rain jackets or helmets.With its roll-top closure, the "Mile Grinder Commute 25" is not only heavy-duty, because together with the waterproof material from which the backpack is made, the Connector prevents rain from penetrating directly. It is also practical that you can attach an additional rear light to one of the loops so that you can be seen even better in cloudy conditions.
