

SRAM Rotor "HS2"

6-hole, Ø 160 mm, with steel Mounting Screws

RRP: 58,00 €

The SRAM HS2 stainless steel brake rotors have been specially developed for MTB and E-MTB and offer noticeably improved braking performance and reduced noise compared to previous rotors. This is made possible by the 2.0 mm thick rotors, an optimized profile for better pad traction and recessed spokes with a heat-dissipating coating that significantly improve heat management. The rounded outer edges increase safety and facilitate wheel installation.

Datos maestros

Número de artículo del proveedor:	00.5018.176.000
EAN	710845862328
UVP	58,00 €
SB-Artículo	Sí
DST-Code	2Q06
Bidex-Code	203020
Fedas-Code	160405
Marca/Proveedor	SRAM
Unidad de medida:	PIECE
Weight	0.158 kg

Datos técnicos

Alojamiento	IS (6-hole)
Artículo	Article
Características	optimized heat dissipation , reduced noise , rounded edges
Color principal	Plata
Color secundario	Negro
Diámetro	160.0 mm
