

DoggyTourer Dog Trailer "Doggy Tourer XL"

blue

RRP: 1.729,20 €

The XL Dog TrailerThe "Doggy Tourer XL" is the solution when it comes to touring with your dog, whether it's a classic bike ride or a longer, more enduring ride on an e-bike. The "Doggy Tourer" is then used when the four-legged friend has become tired, at the latest at the end of the tour. Or in between, if the route does not allow the dog to run alongside. The aluminum tub is stable and scratch-resistant, but the dog lies on a robust carpet. The hood protects against rain (up to a water column of 3000) and sun. The viewing windows allow you to see your dog during the ride and the dog to see out. With internal dimensions of 120 x 61 x 68/86 cm (length x width, times height front/rear), even really large dogs can fit in the Trailer or the weekly shopping. According to the manufacturer, the elastomers compensate for uneven ground up to a permissible total weight of 80 kg (please note that the trailer weight + dog counts towards the permissible total weight of the bike/e-bike). Including drawbar and trailer hitches, parking brake, LED Light (with batteries) and reflectors on all sides. Like the fabrics, the Doggy Tourer XL is made in Germany. The manufacturer offers a 25-year guarantee on the aluminum construction. The Trailer can be compressed to a height of 25 cm for transportation in the car.
