

## new looxs Backpack "Odense Backpack"

rust

**Price: 52,99 €**

The ideal companion for city trips Cycling to work or exploring the Danish city of Odense on foot - the NEW LOOXS backpack of the same name is ideal for both scenarios. You can easily take a camera, rain jacket and snacks with you in the 18-liter capacity. Thanks to the padded inner compartment, you can also fit a 16" laptop in there if you're going to the office. There is also an additional compartment for a tablet. The backpack is made of polyester and covered with a special plastic (TPU), making it very robust and waterproof at the same time. You can take it with you in two ways: Either you can clamp it to your Carrier using the existing hooks or you can take it on your back - in which case the hooks disappear behind a zipper. Reflective applications round off the features of the Odense Backpack and make you more visible in traffic.

### Datos maestros

Número de artículo del proveedor:	226.542
EAN	8714827984215
