

CONTEC Wall Hanger "bikeArt Shelf"

black / walnut

RRP: 39,95 €

Is your bike too beautiful for the road? We know! With our CONTEC bikeART Shelf wall bracket, you can finally display your piece of jewelry where it belongs - on the wall of your home. Our bikeART wall bracket is not only practical for those who would like to integrate their bike as decoration for their living space, but also for those who may not have any other way to secure their bike. The design is particularly space-saving and offers you additional storage space so that you can place your helmets on the shelf, for example. There are also two hooks under the wall bracket on which you can hang a jacket or keys. The Wall Hanger bikeART Shelf can hold up to 25 kilograms and comes with a Velcro strap that is used to attach the front tire. This ensures that the front of your bike always remains in the same position so that the tires and handlebars can no longer swing back and forth. bikeART Shelf is suitable for bikes with a straight top tube with a diameter of less than 55 mm and handlebars up to 50 cm long.
