

CONTEC Wall Hanger "smART fold"

suitable for tire width under 54 mm (under 2.1")

RRP: 49,95 €

Be smart, mount smART! Our smART Fold S wall bracket is a clever way to suspend your bike. Thanks to the intelligent design, you can hang your bike vertically on the wall and use the Holder's swivel function to tilt the suspended bike to the left or right to save even more space. This is how the suspension works: Dsiplay your bike on the rear wheel and lift it up so that you can hang the Front Wheel in the upper arm. After hanging the front tire, apply some pressure to the rear tire so that it is clamped in the lower device of the wall bracket. Tip: Mount smART Fold S in a corner of the room to make optimum use of the vertical space and save space! CONTEC smART Fold S holds up to 35 kilograms and is suitable for a tire width of less than 54 mm.
