

QiO Lock Set "One Key Solution"

black, NAZ Standard, non-removable key, with battery lock for PowerPack 545/725

RRP: 99,95 €

Double theft protectionThe QiO lock set "One Key Solution" consists of the Protect-O-Connect frame lock "RS 480 AZ", a TRELOCK Plug-in Chain and a lock cylinder for the Battery. The frame locks provide a solid basis if you only want to secure your QiO bike briefly outside a bakery.The 100 cm long Plug-in Chain significantly increases the level of theft protection. The cylinders for the Battery and the frame locks are keyed alike and can be operated using the removable reversible key. A reversible key is characterized by the fact that you can plug it into the cylinder on both sides. It also has recessed holes instead of the usual sharp edges, so it won't cause any damage to your bags.The "One Key Solution" lock set is suitable for all ONE models and the Compact AP8.
