

CONTEC Kassetten-Hinterradnabe "Eroq DB"

11-/12-speed SRAM XD, installation width 135 mm

Price: 31,99 €

A Hub is like the heart of a Wheel - it forms the stable core that leads to a smooth riding experience. A rear wheel hub has the additional task of keeping a firm grip on the cassette in order to promote both optimum power transmission of the chains and trip-free shifting. Our CONTEC EROQ cassette rear hub is particularly robust and can therefore withstand the high torque and weight of an e-bike. The Hub has an aluminum body with a hollow axle and is attached to your bike using a suitable QR (e.g. CONTEC EROQ.R Rear). The matching QR is included with the hub. The standard installation width of the CONTEC EROQ cassette rear hub is 135 mm. It is also suitable for 6-hole brake rotors and has 32 spoke holes. The EROQ rear hub has a robust SRAM XD Freewheel Body made of sturdy steel with high-quality ball bearings. The ratchet freehub system with 27 teeth and 3 Pawls offers fast interaction between the freehub and hub body, so that your pedal stroke is quickly converted into propulsion.

Datos maestros

Número de artículo del proveedor:	RTP XD DB
EAN	4251971146358
UVP	79,95 €
Fedas-Code	160452
SB-Artículo	No
Bidex-Code	204030
DST-Code	2P04
Marca/Proveedor	CONTEC
Unidad de medida:	PIECE
Weight	0.369 kg

Datos técnicos

Alojamiento de freno	disc - 6-hole
Anchura de montaje	135 mm
Artículo	Article
Catenaria	41.5 mm
Cerchio del freno	no , yes
Cierre rápido	inkl. 153 mm Schnellspanner
Color principal	Negro
Cuerpo de piñón libre	XD
Diámetro de la brida	68 mm
Diámetro del agujero del radio	für 2,00 und 2,34 mm

Eje	hollow axle 9 mm
Material cuerpo de piñón libre	steel
Material del cuerpo del buje	Aluminium
Montaje	rear wheel
Número de agujeros	32 holes
Número de trinquetes	3 pcs.
Para rueda	standard
Sistema de rueda libre	27
Texto configurador de ruedas	suitable for E-bike
Tipo	cassette
Tipo de radio	J-Bend
Tipo de rodamiento	ball bearing
Velocidades	11-fach , 12-fach
