

CONTEC Reducing adapter "Drop-A-Gogo II Kit E"

10mm, for Ø 30,9mm and Ø 31,6mm

RRP 4,95 €

Do you need a slightly smaller adjustment range for your Drop-A-Gogo II? With our matching reducing adapter, you can adjust the adjustment range of your height-adjustable seatpost even better to your individual needs. Depending on the adapter version, this is possible for up to 5, 10 or 20 mm. And the best thing about it? You don't even need to remove the Drop-A-Gogo II Vario seatpost to fit the reducing adapter. All you need to do is loosen the end ring and slide it upwards. The adapter is then placed on the upright below the end ring and the latter is tightened again. Done! The extension height is reduced by the height of the respective adapter. Note: The reducing adapters cannot be combined with each other and only fit on the Drop-A-Gogo II.
