

## TEKTRO Rotor "TR54"

Ø 160 mm, old packaging

**Price: 12,11 €**

The TEKTRÖ TR54 brake rotor is a 6-hole brake rotor with a thickness of 2.3 mm, specially designed for powerful four-piston brake systems. The one-piece stainless steel rotors offer high rigidity and thermal stability, which ensures constant, reliable braking performance, especially under high loads and long descents. The optimized rotor design noticeably reduces vibrations and noise when brakes are applied. The brake rotors are supplied with T25 mounting screws for quick and secure installation.
