

CONTEC Handlebar Tape "Comfort.Micro"

black

Price: 9,99 €

Smooth, cushioning and stylish - these three words describe the CONTEC Comfort.Micro bar tape pretty well. The surface is pleasant to the skin, but at the same time offers enough grip to keep a firm grip on the handlebars even in the rain. Dirt can be easily removed with a wet cloth. Thanks to the high quality, synthetic EVA foam matrix with gel inside the bar tape, vibrations are dampened by unevenness on the track, so that any pressure on your hands is minimised. The special diamond structure of the surface also offers optimum grip and therefore the safety you need, even in wet conditions. The material is highly elastic, making the Comfort.micro handlebar tape clean and easy to wrap. With a length of 200cm, a width of 3cm and a thickness of 2,5cm, Comfort.Micro fits almost every standard road and gravel bike handlebar. Adhesive strips and two bar end plugs are included in the packaging.

Datos maestros

Número de artículo del proveedor:	VLT-2019HD2 BLACK
EAN	4251971165489
UVP	19,95 €
DST-Code	2B04
SB-Artículo	Sí
Bidex-Code	205030
Fedas-Code	160216
Marca/Proveedor	CONTEC
Unidad de medida:	PACKAGE
Weight	0.08 kg

Datos técnicos

Anchura	3.0 cm
Artículo	Article
Características	selbstklebend
Color principal	Negro
Grosor del material	2.5 mm
Longitud	200.0 cm
Material tapones de manillar	Kunststoff
