

QiO Carrier Adapter

black anodized

RRP: 19,95 €

Expand your transport options and add one of the two "BEN" or "LUK" front Carriers to your QiO EINSx. As the Cross model is equipped with a Suspension Fork, you need the "Adapter Rack" adapter to mount a front rack.This gives you more flexibility in your everyday life and allows you to transport a wide range of things in a variety of ways - with your EINSx. The Compact models with Suspension Fork do not require this adapter.
