

CONTEC Water Bottle "Rivers Twist M Replacement"

600 ml

RRP: 13,95 €

What do you get when you combine our Rivers water bottles with Fidlock technology? Rivers with a twist! The new Special Edition Water Bottle can literally be detached from its Holder in the blink of an eye and provides an even faster supply of drinking water. So you can refresh yourself quickly and continue your adventure straight away.The CONTEC Rivers Twist Replacement is the water bottle without a Fidlock connector and without a bike base - it only serves as a spare part. When your water bottle is past its best, you can replace it without the Fidlock accessories. The bottle body holds up to 600 ml of liquid and is BPA-free, dishwasher-safe (up to 50°C) and, of course, odorless and tasteless.What is Fidlock?Fidlock technology makes it possible to dispense with a conventional Bottle Cage and offers a space-saving alternative that allows you to grab the corresponding Water Bottle even faster. The flat Fidlock connector is mounted on the bottle cage eyelets of your bike like a standard Holder. The counterpart is already integrated in the Rivers Twist water bottle. This is because both parts of the system are connected by magnets. If you want to detach the water bottle from the connector, all you have to do is turn the bottle to the right like a clock hand. When reconnecting, the magnets of both Fidlock system parts ensure a quick, firm hold.

Datos maestros

Número de artículo del proveedor:	09667-P07202(TBL)
EAN	4251971174177
UVP	13,95 €
SB-Artículo	Sí
Bidex-Code	301710
DST-Code	2J01
Fedas-Code	160862
Marca/Proveedor	CONTEC
Unidad de medida:	PIECE
Weight	0.091 kg

Datos técnicos
