

CONTEC Aluminium Rim "Xeta" 27,5"

27-584, 567 mm ERD (measured including spoke holes), 18 mm high, 27 mm inner width, 31 mm outer width, approx. 543 g

RRP: 39,95 €

The ideal foundation for building a tubeless-ready wheel for 27.5" (650B) bikes with 32 spokes. Thanks to its hollow-chamber construction, the Xeta rim, made of 6063 aluminum, is particularly lightweight and sturdy. When assembled into a complete wheel, these rims are suitable for a system weight of up to 150 kg. With an inner rim width of 27 mm, tires ranging from 53 to 69 mm in width fit on the rim. The single-eyelet spoke holes ensure additional durability of the Aluminium Rim by reducing friction between the Spoke Nipples and the Aluminium Rim and also preventing the Nipples from grinding into the Aluminium Rim. The Xeta rim is only suitable for wheels with disc brakes. You can find matching tubeless rim tapes in our CONTEC product range.

Datos maestros

Número de artículo del proveedor:	30002499
UVP	39,95 €
