

CONTEC Helmet "Como"

black velvet, size S / M (52-58 cm)

RRP: 99,95 €

Italian elegance for your e-bike: The CONTEC Como helmet is reminiscent of the typical Mediterranean moped helmets and is designed to give you a good riding experience, especially in busy traffic. The combination of comfort, style and safety is achieved thanks to the Como Helmet's many clever features.First and foremost, these include the integrated LED front and rear light strips, in bright white at the front and red at the rear. The helmets are also equipped with a turn signal function! You can easily control this using the Remote Control included in the scope of delivery, which you can attach to your bike's Handlebar, for example, thanks to the universal elastic fastening. With just one click on the respective arrow, the flashing light signal appears either on the right or left side of the rear light strip on the Helmet.In addition to all-round lighting, the Como also offers you other functions that contribute to both your safety and your comfort. It is made from a combination of a lightweight in-mold micro-shell plastic construction with a thin EPS inner shell and is equipped with a large clear visor that can be folded down.The helmets can be opened quickly and easily with one hand using the magnets Fidlock snap lock. The straps made from recycled PET water bottles are finished with reflective seams and offer greater visibility. Inside, the so-called Cooling Pads, i.e. sealed padding with an anti-sweat effect, ensure a cool head.Como has been painted with environmentally friendly, water-based paints.
