

CONTEC Centering device "Tru.Mate"

black

RRP 179,95 €

Don't want to go through the trouble of removing the wheel just to true it? In that case, the CONTEC Tru.Mate Centering Device is exactly what you need. Tru.Mate is a portable precision Centering Device equipped with a dial gauge (accuracy: 1/10 mm). You can attach it directly to frame or fork tubes (up to Ø 55 mm). It features an easy-to-use clamp with rubberized Clamping Jaws and a three-joint design. This allows you to center the wheel while it's still mounted, saving you time and space in the workshop. The included storage case (included with the product) is sturdy and lined with foam inserts.
